

Training obligation for the processing of products containing diisocyanates

For the processing of diisocyanates in the industrial and commercial sector, a training obligation was decided within the framework of the REACH Regulation, which will be mandatory from 24 August 2023.

IMPACT ON COMPANIES AND PROCESSORS

PROCESSORS

- must be trained in the safe handling of diisocyanate-containing products as of **24 August 2023**

EMPLOYERS

- are responsible for implementing this **training obligation** for their **employees**
- the training is provided by occupational safety and health experts or online
- training must be **repeated** at least **every 5 years**
- the employer documents the successful completion of the training

DEALERS

- There is no obligation to provide proof of training when buying or selling the products, only when processing them.
- Information on the training obligation must be passed on to processors of the PUR products concerned.
- The information on the training obligation is printed on the products concerned.

TRAINING COURSES (ONLINE)

In cooperation with several manufacturers' and industry associations, an online training platform has been made available via the website www.safeusediisocyanates.eu.

AFFECTED PRODUCTS FROM OUR RANGE:

- ZZ® 330** Fire Protection Foam
- ZZ® 383** Fire Protection Foam
- ZZ® 380-p** Fire Protection Casting Compound
- ZZ® 381-f** Fire Protection Casting Compound
